Professional Summary

Full-Stack Developer with 3+ years of experience building web products using Python, Django, Django REST Framework, PostgreSQL, React, Next.js, and TypeScript. Experienced in API design, authentication and authorization, relational data modelling, third-party integrations, responsive interfaces, and end-to-end feature delivery. Contributed to automotive, e-commerce, EdTech, inventory, sales, and operational platforms across full-time, contract, freelance, and remote environments.

Core Skills

Backend: Python, Django, Django REST Framework, REST APIs, Django ORM, authentication, authorization, permissions

Frontend: TypeScript, JavaScript, React, Next.js, Redux, Tailwind CSS, reusable responsive components

Data: PostgreSQL, MySQL, SQLite, Prisma, relational modelling, migrations, query optimization

Testing and delivery: Playwright, Git, GitHub, Docker, Linux/Ubuntu, Nginx, Gunicorn, deployment configuration

Professional Experience

Full-Stack Developer | Swaqly

March 2025-Present | Full-time

- Design and maintain Django/DRF services and REST APIs consumed by web and mobile applications.
- Implement authentication, authorization, validation, permissions, and third-party integrations.
- Model relational data and optimize database queries for reliability and maintainability.
- Build product features using React and Next.js and connect them to backend APIs.
- Collaborate with mobile, frontend, and UI/UX contributors to deliver complete workflows.

Full-Stack Developer | First Filter

June 2024-May 2025 | Freelance

- Built an automotive product platform using Django, DRF, PostgreSQL/MySQL, React, Next.js, and React Native.
- Designed models and APIs for filters, vehicles, manufacturers, categories, and related data.
- Implemented permissions, media uploads, administrative workflows, and client-side API integration.
- Supported web/mobile delivery, deployment, and production debugging.

Full-Stack Developer | Mega Digital Agency

January 2024-June 2024 | Full-time

- Delivered responsive websites and application features using modern JavaScript technologies.
- Integrated third-party APIs and external services into client-facing workflows.
- Collaborated in an agile environment to deliver maintainable, production-ready solutions.

Frontend Developer | Valinteca

October 2022-February 2023 | Remote contract

- Built e-commerce interfaces using React, Redux, JavaScript, HTML, and CSS.
- Created reusable components to support consistent e-commerce interfaces.
- Participated in code reviews focused on accessibility, maintainability, and clean code.

Selected Projects

TijaraOS - Inventory and Sales Management SaaS

Django, Django REST Framework, PostgreSQL, Redis, Docker, GitHub Actions, Next.js, TypeScript

- Designed backend and frontend foundations for organizations, branches, products, inventory, customers, sales, and reporting.
- Implemented APIs, domain services, relational models, permissions, migrations, protected routes, and form validation.
- Configured PostgreSQL/Redis services, Docker Compose, and path-based frontend/backend CI workflows.

First Filter Automotive Platform

Django, Django REST Framework, PostgreSQL, React, Next.js, React Native

- Designed database models and REST APIs for automotive filter and vehicle-catalogue workflows.
- Built web and mobile features, image-upload flows, permissions, and administrative operations.
- Supported deployment and production debugging across the stack.

CSUnivers EdTech Platform

Next.js, React, TypeScript, Prisma, MySQL

- Designed courses, modules, lessons, quizzes, practices, games, enrollments, and progress tracking.
- Implemented student, instructor, and administrator roles.
- Built bilingual Arabic/English product experiences and responsive learning workflows.

Additional Experience

Full Stack Engineer - Teaching and Mentoring | AMIT Learning

June 2024-December 2024

- Taught and mentored learners in frontend, backend, Python/Django, React, SQL, and programming fundamentals.
- Created practical exercises and coding tasks for beginners and university students.

Education

Bachelor's Degree in Arabic Language, expected 2027

Al-Azhar University, Egypt

Languages

Arabic: Native | English: Intermediate
